EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

2. The application has been amended as follows:

In claim 16 line 4, "best" was replaced with --based--.

Allowable Subject Matter

3. Claims 1-20 are allowed.

4. The following is an examiner's statement of reasons for allowance:

The prior art of record fails to teach or fairly suggest using a computer network to convey from a first location to a second location a response that includes a recommended repair sequence of steps for repairing a part **and error proofing directions based on the recommended repair sequence of steps included in the response**, in combination with the remaining features and elements of the claimed invention.

The Applicant discloses a description column in a spreadsheet that sets forth the error proofing/best practices directions to use in executing a particular step in the recommended process sequence being built from a decision tree. The discussion of error proofing/best practices directions can be found on page 16 line 30 – page 18 line 17 and Fig. 6 of the Applicant's specification. When viewed in this light, Hart et al. is not deemed to cure the deficiencies with respect to Horejsi et al. in regards to the above feature, in combination with the remaining features and elements of the claimed invention.

5. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Drawings

6. The drawings filed on 3/21/00 are acceptable subject to correction of the informalities. In order to avoid abandonment of this application, correction is required in reply to the Office action. The correction will not be held in abeyance.
